

7 Tips

TEACH YOUR CHILD A NEW LANGUAGE

START WITH SONGS AND MUSIC

Songs are joyful and music is a universal language. Combine them for a fun-filled learning party!

INCORPORATE EVERYDAY EXPRESSIONS

Make speaking the target language a life style. The more you and your child hear and use it, the better it sticks.

HAVE FUN WITH GAMES

Playing is learning for kids of all ages. Be it outdoor, indoor activities or board games, turn playtime into active language engagement.

CREATE A ROUTINE

Consistency is key. Make the target language a daily joy with listening and reading, and your child will engage and build confidence.

ENGAGE THE SENSES

Ignite curiosity using the senses. Offer hands-on projects catered to your child's interests. By immersing in play, kids actively engage both hands and minds in acquiring the target language.

LANGUAGE & CULTURE GO HAND IN HAND

Embrace both language and culture. Introduce your home to the rich traditions of the target language.

KEEP A HAPPY MINDSET

Stay positive and keep it fun! Approach each session with a smile, today and every day. Celebrate each tiny success with your kids.
