

Toys & Games That Harness Tactile Learning & Boost Bilingualism

Brought to you by Melissa Bernstein of Lifelines and TA-DA!

DEEP ENGAGEMENT

Toy: Sensory/Texture or Activity Boards

Description: Just like tending to a variety of plants, these boards come in different materials to foster diverse sensory exploration. Buy or make your own.

Bilingual Boost: Children learn nouns & adjectives in multiple languages to describe textures.

FOSTERED IMAGINATION

Toy: Story Cubes

Description: Wooden dice (or paper cube) images that prompt storytelling—plant the seeds of creativity! (Buy or make your own.)

Bilingual Boost: Roll, tell a story, and then translate it! A fun way to practice vocabulary and sentence structure - and watch it bloom - in two+ languages!

LINGUISTIC DEVELOPMENT

Toy: Bilingual Vocabulary Cards

Description: Flash cards with pictures and words in two+ languages—like labeling plants in a garden.

Bilingual Boost: Engage in active recall, nourish vocabulary, and encourage conversation around each card.

BALANCING THE DIGITAL TIDE

Toy: Build & Describe Block Set

Description: Wooden blocks of varying shapes and sizes—laying the foundation like you would in a garden.

Bilingual Boost: As children build, they describe their creations in both languages, from the color of the blocks to the structure's purpose.

ALL OF THE ABOVE

Toy: TA-DA! Talking Books

Description: Interactive books that blend play, music, art, and language—your child's learning garden in full bloom!

Bilingual Boost: Vocabulary building and both visual and aural story-rich details allow for a rich language immersion experience.
